WHAT TO EXPECT

During all internships at Bridgeman Academy, students work alongside professionals in the areas of teaching, administration, design and more to gain hands-on experience in a variety of creative fields.

Teaching Internship: Teaching internships are set up to allow students to receive hands-on experience specifically in the field of teaching. Students begin by shadowing one of our qualified performing arts instructors and assisting during daily/weekly classes. Students are educated in writing lesson plans, following syllabuses and then are given the opportunity to instruct classes independently under staff supervision

Administration Internship: Administration internships educate students in the many facets of running an arts program. Students will get experience with licensing, scheduling, payroll, registration, creating syllabuses and more.

General Internship: During general internships students will receive both teaching experience and administration experience. While this internship is less in depth, students will come out with a better overall knowledge of running an arts business.

Student Specific Internship: Student Specific internships are curated by the studio owner with a more specific focus tailored to the experience the student is wanting to gain.
